

# PRESS RELEASE

Date: March 23, 2015

## RE: NEW TANNERSVILLE PHARMACY

**Tannersville and Hunter's new pharmacy Wellness Rx is almost here.**

According to Wellness Rx's CEO and the Pharmacy Manager for the new store Ed Ullmann, we anticipate opening the pharmacy at 5980 Main Street (The Astor House) the first week of May. In addition to filling prescriptions and offering a full range of over-the-counter products, the pharmacy will be a Natural Products Center, training center for pharmacy students and following the company's flagship store in High Falls, NY introduce the concept of a Health Co-op which encourages health professionals to work together as teams to enhance patient care. The pharmacy will accept all third party insurances and offer home delivery.

According to Anne Jakubowski, Executive Director of the Hunter Foundation, "the new pharmacy will be an excellent example of **community resources coming together** to fill a community need created when a chain pharmacy purchased and closed down Tannersville's remaining pharmacy over 10 years ago."

According to Mr. Ullmann, "I've lived in these beautiful Catskills Mountains since 1975 and look forward to bringing to Tannersville a beautiful and different type of pharmacy that meets the needs of the local community while creating new employment opportunities. Our team has been especially pleased to work together with the Hunter Foundation to achieve this goal and to help continue the re-development of Tannersville as a great place to raise a family or to visit for relaxation or play"

Invitations to the new stores Open House will be released shortly. For further information, please contact Mr. Ullmann at [wellnessrxceo@yahoo.com](mailto:wellnessrxceo@yahoo.com)
